

Camano Center in partnership with SSIC maintains a confidential special needs registry to help emergency responders know how to find you to provide the special care you may need during a disaster.

Who should register?

- Persons who are frail or housebound
- Persons with a mobility, vision, or hearing impairment
- Persons with a serious condition who are medically fragile
- Persons with disabling mental illness or developmental disability

What kind of assistance can I expect if I register?

- You can request evacuation assistance and for someone to phone or check in on you

How long will you keep my information?

- We will notify you annually when it is time to re-register

How quickly will help arrive after a disaster?

- Help may arrive within a few hours or it may take several days depending on the nature and extent of the emergency and how severely your neighborhood is affected

The Camano Center special needs registry is a tool to assist vulnerable seniors and persons with disabilities. The special needs registry program maintains a listing of all registrants to provide information to emergency responders and Camano Center volunteer "Disaster Buddies" assisting after a disaster.

The registry contains information provided voluntarily by you.

Because resources are limited, registration into the database is not a guarantee that you will be provided services or be placed on a priority list for emergency response.

Registering should be done along with other preparedness activities. All citizens are encouraged to be self sufficient for at least 5-7 days with supplies like food, water and medications and under the assumption that all public utilities will not be available.
